# **Overseas Agent Security Questionnaire**

## **Customs-Trade Partnership against Terrorism**

#### **Introduction and General Instructions**

As you know, CLEARFreight is a member of the Customs-Trade Partnership Against Terrorism (C-TPAT). This program is a key anti-terrorism initiative developed by U.S. Customs and Border Protection (CBP) in partnership with the U.S. business community. To qualify for C-TPAT membership, we must ask about the security procedures in place throughout our supply chain of which your operation is an important part. For purposes of C-TPAT, CBP defines the supply chain to extend from an importer's point of origin (manufacturer/supplier/vendor) through to the shipment's distribution point(s) in the United States.

To remain in good standing in the program, we are required to have written and verifiable processes for the selection of business partners, including carriers, customs brokers, non-US consolidators, and domestic and non-US warehouses. As part of these processes, we are also expected to ask you to demonstrate that your company's security procedures meet the minimum security requirements established by CBP, to the greatest extent possible.

Your responses to this questionnaire will help us meet our obligations as members of C-TPAT. Please contact us before answering this questionnaire if you have any questions about the minimum security procedures outlined below. This questionnaire is designed to help identify those areas where improvements may be needed in order to meet CBP's minimum security requirements. Identifying where improvement may be needed will not negatively affect our business relationship, but will allow us to work with you to develop a security improvement plan that makes sense for your operations. Your responses and your compliance with the C-TPAT minimum security criteria are subject to verification by us as required by CBP. We will incorporate the verification of your supply chain security into our quality control and inspection(s) of your operations.

Note: If you have responded to our questionnaire in the past, you may simply update new information or changed status. You do not need to respond to each item, if there is no change. ALSO ADD A NO CHANGE COLUMN BELOW.

Your questionnaire responses must be signed by an officer of your company. If you have several operations with different procedures, please copy this questionnaire and provide separate responses for each one. When we talk about "your operations" or "your business," they may be your own or they may be third party warehouses or trucking/transport companies that you hire to handle, load and transport international cargo destined for the U.S. In other words, please provide responses for your own operations, as well as any third-party cargo handling and trucking/transportation service providers which are processing U.S.-destined cargo on your behalf. Please limit your response to only those operations that handle cargo destined for the U.S. as C-TPAT only applies to the trade lane between your country and ours. Please indicate the operations covered by this response, or note "all" if one response covers all of your cargo handling operations:

-1-

Feel free to attach any supporting documents, such as written policies and procedures, if you think that information would be helpful or provides an easier way for you to respond to these questions. You may also attach longer written explanations to clarify any of your responses, or insert information on the form directly after the question. For example, if there are legal or regulatory restrictions which stop you from implementing a specific procedure, or perhaps you have substituted a security measure in place of one

### **Overseas Agent Questionnaire**

mentioned below, please tell us that and provide an explanation. Please return your response within thirty (30) days of receipt.

		_	_	
	ase respond by circling or marking the appropriate answer with an "X". We			
	lize this questionnaire includes items that may not apply to your business. If question does not apply, please mark an "X" in the "Not Applicable" column.			
	Are you a member of a WCO-accredited security program administered by a non-US customs authority? If you are a member of a WCO-accredited program, please identify the program and supply evidence of your status,			
	after which, you may go to the end of this questionnaire, and sign, date and return it to us. Program:Status:	YES	NO	
2.	Do you participate in some other non-US Customs supply chain security program? If so, please identify the program and supply evidence of your status. Program:	YES	NO	
3.	Status: Does this response pertain to a company operation?			Not
-		YES	NO	Applicable
4.	If yes, is cargo handled at this site?	YES	NO	Not Applicable
5.	Is this response about a warehouse you hire when you handle cargo destined for the U.S.?	YES	NO	Not Applicable
6.	Is this response about a truck/transport company you hire to move cargo from the manufacturer/supplier or cargo handling site to the international carrier's operations?	YES	NO	Not Applicable
7.	Do you periodically check the supply chain security procedures at your third-party warehouses and truck/transport companies?	YES	NO	Not Applicable
	Physical Security			
una	e following questions have to do with the measures already in place to prevent authorized access to cargo areas and also to safeguard against theft and botage.			
	Are all buildings constructed of materials that resist unlawful entry and protect against outside intrusion?	YES	NO	
	Are the building(s) and grounds, including access areas and lighting, regularly inspected for damage, and repaired as needed?	YES	NO	
10.	Is there proper lighting, enough to deter intrusion, inside and outside the building(s), including parking areas, fence lines, entrances and exits, and cargo handling and storage areas?	YES	NO	
	Are there written procedures to report unauthorized entry into the building(s) to local law enforcement officials?	YES	NO	
sec	e following questions have to do with the enclosures, barriers, and other curity measures where cargo is handled which protect those areas from when include the second s			
	authorized entry. Are cargo handling and storage areas enclosed by fencing?	YES	NO	Not
	Is interior fencing used to segregate high-value and/or dangerous cargo in	YES	NO	Applicable Not Applicable
14.	a secure area within the warehouse or storage area? Is the fencing regularly inspected for damage, and repaired?	YES	NO	Not Applicable
15.	Are the gates through which vehicles enter the cargo handling and storage areas manned and/or monitored at all times when your business operates?	YES	NO	Not Applicable
16.	Are the gates closed and locked when the business is closed?	YES	NO	Not Applicable
17.	Are the parking areas for employee/visitor/vendor and other passenger vehicles separate from the shipping/loading dock and cargo handling areas?	YES	NO	Not Applicable

	e following questions relate to the use of video surveillance to monitor facility cess points and cargo handling areas.			
18.	Are video cameras used to monitor the entrances to the building(s) and cargo handling and storage areas, for the purpose of deterring unauthorized access? If yes, how long are the media and records kept: e following questions have to do with the locking devices you use to secure	YES	NO	Not Applicable
	idows, doors, gates and fences.			
	Do management or security personnel control the keys and other locking devices?	YES	NO	Not Applicable
20.	Are there written records about the issuance, removal and changing of access devices, such as keys and key cards?	YES	NO	Not Applicable
21.	Are locking devices used to secure all doors, windows, gates and fences? Please explain exceptions and describe the locking mechanisms used (manual, electronic, etc.)	YES	NO	Not Applicable
The	e following questions pertain to the use of alarm systems.			
22.	Is an alarm system used to monitor buildings and grounds and prevent unauthorized access to cargo handling and storage areas?	YES	NO	Not Applicable
23.	Are all access points monitored?	YES	NO	Not Applicable
24.	Describe any other security systems or measures in use, such as guards employed by the company, guard services, or guard dogs:
